

LA VÈTA

5th SUMMERACADEMY GARDENA

FOR DRAWING & SCULPTURE

C O N T E N T :

Summeracademy Gardena is a two-week course program around drawing and sculpture in the middle of the South Tyrolean Dolomites.

The Summeracademy is dedicated to artists, sculptors and art students above 18 years!

A selected group of 20 international participants will be led by a team of three artists.

The focus lays on the human figure, from which large-scale drawing and modelling is carried out using live models.

The participants are familiarised with different aspects of drawing, in order to train their eye, develop their individual design language and deepen their drawing skills.

Modelling can be seen as a continuation of the drawn, there will be live models available for this as well.

The participants are encouraged, supported and trained to analyse and critically question their work. Connections to space, volume and material are examined and one's own work is viewed from different perspectives.
